

HEALTH 250
QUALITY WEBSITES FOR YOUR RESEARCH
January 2006

Librarians' Index to the Internet

<http://lii.org>

A subject directory to websites evaluated by librarians. Under "Health", click on "Diseases and Conditions" to retrieve an alphabetical list of the conditions covered in the directory.

Centers for Disease Control and Prevention

<http://www.cdc.gov/>

Contains in-depth information and statistical information on diseases or conditions that are known to be wide-spread, and especially on communicable diseases or antibiotic-resistant diseases.

Family Doctor.org

<http://familydoctor.org/>

Hosted by the American Academy of Family Physicians. Provides information on conditions and questions frequently addressed by family doctors.

Health Information

www.nimh.nih.gov/healthinformation/index.cfm

Reliable, comprehensive information on psychological issues or learning disorders. Provided by the National Institute of Mental Health.

Healthfinder

<http://www.healthfinder.gov/>

Extensive linking to evaluated sites, including those established by individual hospitals. Provided by the U.S. Dept. of Health & human Services.

Medline Plus

<http://medlineplus.gov/>

Comprehensive linking to evaluated sites. Provided by the National Library of Medicine.

Overlake Medical Library Consumer Health & Education

<http://medlib.overlakehospital.org/>

A nationally-recognized collection of evaluated web sites related to consumer health. Click on 'Consumer Health & Education Resources' on the sidebar on the left of the homepage to retrieve the list of topics covered.
