Life, the Universe, and Everything

Are we alone in the universe? Is there life on Mars or Jupiter? Do aliens exist in other solar systems, and have they visited the Earth? Just how unique is life on Earth? Learn the answers to these and any others questions as we explore the wonders of life, the universe and everything, in an intergalactic search for extraterrestrial life.

Sign up INTER 115 – Item # 0610 and participate in an active learning community led by Rob Viens (Biology) and Art Goss (Astronomy).
