

HD 210
Leadership Today: Building Tools for Tomorrow - Summary
2 credits
Instructor: Jerry Bunce, MA

Learning Outcomes

- Students will learn leadership theory through reading assignments, classroom discussion, and classroom exercises
- Students will take the leadership theory learned in the classroom and apply it to a project outside the classroom or do a leadership presentation
- Students will create a project report and present it to the class
- Leadership concept seeds are planted which will grow as the student pursues further education, reading and practice in real life

Note: This course will utilize instruction, group work, readings, in-class guest speakers, group discussion, and class projects.

Required Readings: At each session a packet of required and recommended readings will be provided to you. You have one week to read the material and be prepared for the next class.

Final Project and Report Assignment:

Project Requirements:

- Plan and participate in a project that will utilize leadership skills learned in HD 210 and/or 211
- This may be an individual or a team project
- The project may be on campus or off campus
- Review the project with the instructor and gain approval to proceed
- Report on the details of the project, your experience leading a project and your lessons learned
- Reference all sources used in your report when using material not used in the class
